High School Selection

February 25, 2021

Dear Parents/Guardians of Eighth Grade Students:

The time of year to select your child's high school has arrived! The process this year has been different than in past years. We have had many Zoom meets with the other high schools, including some live, "Question and Answer" sessions. We hope you have found these helpful as you finalize a choice for your child. Due to the pandemic, we will not be offering a visitation day as we have in past years. Each of the schools are planning activities over the summer for students to visit the school and participate in an orientation program. Once you have selected a high school for your child, we can begin the transition process, including registration and course selection.

On the attached form, please indicate your selection and return to the main office by **Friday, March 12th 2021**. Families who are opting for a private school should indicate which school on the attached form.

If you have any questions or concerns regarding this process please contact me at (518)283-4600 x27.

Sincerely,

Amy Murphy
School Counselor
