

Contact Tracing

As per the NYSDOH, routine contact tracing is no longer required in school when a positive case of covid is confirmed. However, as WUFSD prioritizes the safety and well-being of students, teachers, and staff, families will be notified when someone on a student's bus or class tests positive for covid.

At-home covid tests are available free of charge at any point. Feel free to contact the main office at (518) 283-4600 to have some available for you to pick up.

You may also fill out our point-of-care testing form to allow us to perform point-of-care testing on your student if they become symptomatic. [Click here to download the form.](#)
