

Remote Learning

To better encourage in-person learning and attendance, WUFSD will no longer be offering synchronous remote learning. Teachers will still be offering asynchronous remote learning, however, through platforms such as google classroom and seesaw. Parents are encouraged to reach out to their student's teachers to go over and better understand how to help their children catch up on school work online in the event that they are absent.

Per our district policy, in the event that students are absent for more than *5 days* due to a medical condition, a tutor will be assigned for educational assistance for 2 hours/day for grades 6-8, and 1 hour/day for grades K-5.

Thank you for your understanding. Please feel free to reach out with any questions at (518) 283-4600.
